Pass Thru - Wall Mount CAP18W - Options Spec Sheet

Option: Stainless Steel Support Legs

(CAP18W-SST-24Wx24Hx24D Shown Above)

Critical Dimensions:

X = Distance Pass Thru Bottom is Elevated from Floor

Stainless Steel Support Legs:

Support legs provide support to a pass thru with a large depth, heavy contents, or flush mount orientation with one cantilevered side. (2) support legs are included with the standard option.

Support legs on all stainless steel and polypropylene pas thru units are type 304 #4 finish stainless steel, and are equipped with a stainless steel adjustable leveler for fine adjustments.

A pass thru with upgraded finish such as cold-rolled painted units or upgraded stainless steel such as type 316, can have support legs of the same material or finish upgrade. (Leg Leveler will remain type 304 stainless steel)

Designed for use with most mounting frames combinations, and are easily bolted to the bottom of the pass thru with pre-constructed threaded holes.

Hardware for support legs are included.
